

The Restriction of Hazardous Substances (RoHS) Directive Statement

BEMA Electronics, Inc. supports the aim to restrict the use of hazardous substances in electrical and electronic equipment, in order to reduce health risks and environmental impacts.

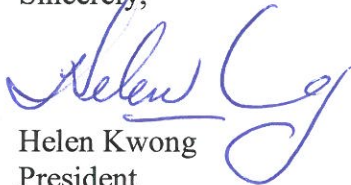

BEMA is aware of the Restriction of Hazardous Substances Directive 2011/65/EC (or RoHS 2) adopted by the European Union in 2011, which restricts the use of six substances:

1. Lead
2. Mercury
3. Cadmium
4. Hexavalent chromium
5. Polybrominated biphenyls
6. Polybrominated diphenyl ethers

We pride ourselves on understanding and meeting the needs of our valued customers, across a wide spectrum of industries. As such, BEMA offers RoHS compliant products to those customers who require it, while still able to meet the needs of customers who specifically require the use of non-RoHS compliant substances.

BEMA remains committed to meeting all regulatory requirements, while delivering the highest quality products to our customers.

Sincerely,

Helen Kwong
President
BEMA Electronics, Inc.
